Central Intelligence Agency
Office of the Deputy Director for Intelligence

NOTE TO: The Honorable Donald P. Gregg
Assistant to the Vice President
for National Security Affairs

Don

Attached is the Directorate of Intelligence Research Program for 1987. It contains sections on what we think the most important security and intelligence issues will be over the next five years, the issues we will be highlighting in our research this year, and DI office research plans.

Throughout the program, you will notice a strong emphasis on Soviet military plans and forces, Soviet economics and politics, and Soviet activities in the Third World. We have also focused on key functional issues -- such as narcotics and terrorism -- and on countries and areas with high potential for instability.

I urge you to leaf through the program, particularly those sections of special interest to you. I would value your comments on specific topics or the overall program.
